

THE DAILY GREMLIN

Newsletter of the 6th Cadet Training Group
and the 2004 Minnesota Wing Encampment

ISSUE 6: THURSDAY 15 JULY 04

Ready for Review

Today In Review

This day's events can be described as enlightening because of the classes taught today.

Air Force ROTC Cadet Lori Sobolewski teaches a class on the USAF Mission.

The cadets first attended the USAF Overview that included the Mission and Core Competencies taught by

Cadet Sobolewski. She explained what the Air Force does as far as Global Attack, Agile Combat Support, Air and Space Superiority, Global mobility, Information Superiority and Precision Engagement.

Later in the day, cadets received a brief CAP History lesson taking them from the beginning in 1941 to the current CAP that we know. It was taught by Lt Col Joel Dale, Minnesota Wing's Reserve Assistance Officer.

Tonight's activities included practice for tomorrow's Pass in Review (PIR). Tomorrow, Minnesota and Wisconsin Wings will parade before a Major General

Cadets preparing for today's inspection.

Finally the cadets held another inspection. The cadets are all showing huge improvements making this less stressful and a learning experience.

SDS News

Today, SDS started the morning off with an encampment training class. It was taught by Cadet Sobolewski and covered the many areas required in Encampment Planning.

After the class, we presented our Out Processing Plan to Capt. Wilberg, Encampment Executive Officer and C/Capt. Atkins the CTG Executive Officer. We participated in a Group Leadership Project after the briefing.

In this exercise, the group had to draw one picture using only directions, and the only person drawing had to be blindfolded.

The highlight of the day was the shadowing. Each of us followed a staff member to see the type of responsibilities they have. During the time, we took notes and observe their every action.

The rest of the day flew by with other classes such as Unprofessional Relationships in CAP, and Different Teaching Techniques.

DDR Factoid

- More young children are killed by parental smoking than by all unintentional injuries combined.
- The Environmental Protection Agency has classified Environmental Tobacco Smoke (ETS) as a "Group A" carcinogen-the most dangerous category of cancer causing agents.
- Smoke from parents' cigarettes is also responsible for an estimated 120 cases per year of sudden infant death syndrome-instances where babies suddenly stop breathing during sleep.
- Researchers now suspect that many harmful effects apparent in crack babies are actually due to nicotine, as many women who use cocaine during pregnancy also smoke cigarettes.

CTG Volleyball Champs

C/Lt Col Scicluna places a streamer on Charlie Flight's Guidon, designating them as the 6th CTG Volleyball Champions.

Today's Quote

You cannot be a leader, and ask other people to follow you, unless you know how to follow, too.
Former US House Speaker Sam Raburn

Honor Flight

C/Lt Col Scicluna places the Honor Flight Streamer on the Guidon of Yesterday's Honor Flight, Echo.

Volleyball Champions

Thanks to the good effort, teamwork and natural talent of our staff, we were able to demolish the Wisconsin Volleyball team and once again rise above as the champions.

The Daily Gremlin is the official daily newsletter of the Sixth Cadet Training Group and the Minnesota Wing Cadet Encampment. The Internet version of this publication is an official Internet operation in accordance with CAPR 110-1. It is published daily from 11-18 July 2004 from offices at Volk Field ANGB.

Lt Col Vicki Eckhoff: 2004 Encampment commander
Capt Al Pabon: MN Wing Public Affairs Officer
C/Lt Col Aaron Scicluna: Sixth Cadet Training Group Commander
C/1st Lt Jake Hawksworth: Group Public Affairs Officer
