Minnesota Wing Civil Air Patrol Training and Maintenance Facility

The Minnesota Wing Civil Air Patrol is building a new Training and Mission Aircraft Maintenance Facility on South St. Paul Fleming Airport. This facility will be available for training for the 1300 cadets and senior members in aerospace education, emergency services, leadership, and professional development. It will be used to maintain the 17 mission aircraft used by the Minnesota Wing for Search and Rescue, Disaster Relief, Aerospace Education and Homeland Defense. Offices of the Wing Headquarters will be located in this facility.

To provide an opportunity for members and friends to help support this effort, the Wing is soliciting donations for the construction of this facility. To recognize contributors, the following levels of recognition are established:

The Mission is to Build a Functional Facility for All Minnesota Wing CAP uses.
